Subject Fields and Assignment Code Descriptions

The basic course code consists of a 5-digit number, with the first 2 digits corresponding to the subject area to which that course belongs. These 2 digits provide the user with a logical link to the subject fields that are used to further describe the course. An alphabetic ordering by subject is used in assigning the subject area codes (e.g., Elementary = 00, English Language and Literature = 01, Mathematics = 02, Life and Physical Sciences = 03).

The last 3 digits of the basic assignment code correspond to the order of courses as described within the subject area. Although rigorous procedures are not used to order courses within the subject areas, courses are grouped according to topics and skills covered within the courses.

In most instances numbers are used consistently to denote certain characteristics of the courses. Assignment codes have been grouped into the following subject fields and should be taught by certified staff holding the proper teaching credentials. Some codes have been moved, replaced or amended and may not fit this structure, (i.e., 07. Humanities)

Assignment codes for grades 6, 7 and 8 are also located in these subject matter areas but “5” has been added to the 1st digit of the subject field (e.g. English Language and Literature for grades 9-12 = 01; English Language and Literature for grades 5-9 = 51).

The **self-contained** elementary and special education assignment codes for grades 1-6 are now available. The district/charter can make the determination regarding how the elementary assignments will be broken out or if the applicable self-contained elementary assignment codes 00009 and 00010 will be used. The 00005 Exploratory (Gr. K-6) assignment code can be used for all non-core content elementary assignments, if the district/charter chooses to break out the elementary assignment codes.

Only six (6) digit assignment codes receive Career Technical Education (CTE) secondary added cost funding. The CTE Assignment Credential Manual can be viewed at the following web location: <https://isee.sde.idaho.gov/Pages/default.aspx>

Although every attempt has been made to accommodate the many different types of courses taught throughout the state, you may not see the exact title and description you are seeking. Please choose the assignment code that most closely aligns to what is actually being taught.

Assignment Credential Manual General FAQs

1. Why do districts/charters have to report their educators' certificated assignments?

Teacher Certification uses the report, called the "Credential Report," to ensure that districts/charters and educators are in compliance with Idaho Statute Title 33-1201 and to determine whether or not funding for assignments will be released to or withheld from districts.

Educators must hold the appropriate certificate/endorsement for the assignments that they are "coded" for. If an educator is coded for an assignment for which he/she does **not** hold the appropriate certificate/endorsement, funding may be withheld from the district/charter for the applicable assignments. Districts/charters, however, can work toward rectifying the issues either by correcting coding, having the educator apply for certification, or having the district apply for an alternative authorization.

2. How does one use/read the Manual?

Each assignment has a numeric code, a title, a description of the assignment, and the endorsements that are allowed to teach the assignment. The SDE Assignment Credential Manual is graphically organized at the front end then arranged as a "crosswalk" at the back end.

For example, the graphically organized portion will look like this:

Assignment Codes

Endorsement Requirement

41010 Superintendent (All grades)

Serves as the chief executive officer and primary advisor to the board of education. Responsibilities include overseeing the development of an educational program and all other activities that impact that program.

7050 Superintendent K/12

41010 Superintendent (All grades)

7050 Superintendent K/12

The crosswalk is arranged **assignment-to-endorsement** like this:

7050 Superintendent K/12
41010 Superintendent (All grades)
41020 Assistant Superintendent (All grades)
41050 Charter Administrator (All grades)
42100 Principal (Elementary)
42110 Assistant Principal (Elementary)
42200 Principal (Secondary)
42210 Assistant Principal (Secondary)

The crosswalk is also arranged **endorsement-to-assignment** like this:

3. How does the district/charter know which code to choose?

The SDE Assignment Credential Manual is extensive, but it is impossible for it to be all inclusive. Districts are advised to choose the code that best reflects the content that is being delivered in the classroom or that best reflects the duties of the educator (in the case of certificated, non-instructional duties).

4. When does the district have to use codes from the CTE Assignment Credential Manual?

If a school has a CTE program, the teachers teaching the CTE classes **must** be coded with codes from the CTE Assignment Credential Manual. If a school does not have a CTE program, the teachers can be coded with codes from either the SDE or CTE Assignment Credential Manual.

5. Why has the Federal HQT requirement column been eliminated?

All instructional staff in Idaho **must** hold the proper certificate and endorsement for the assignment being taught. Teachers teaching core content as identified by the U.S. federal government are no longer required to demonstrate that they are a Highly Qualified Teacher (HQT) for the core content that they are teaching. It is in the best interest of the district, however, to ensure all instructional staff can demonstrate content mastery.

6. How does the district/charter know if an educator can be coded for a particular assignment?

Each assignment will have a list of endorsements that are allowed to teach that assignment. For example, if a teacher holds a Standard Elementary-All Subjects K-8 certificate, he/she can be coded for the following:

54305 Social Studies (Gr. 5-9) (NOT TO BE USED FOR HIGH SCHOOL CREDIT) Social Studies courses enable students to study a group of related subjects addressing the elements and structures of human society that may include economics, geography, history, citizenship, and other social studies-related disciplines.	7010 All Subjects K-8 7200 Social Studies (6-12) 7221 History (6-12) 7222 American Government/Political Science (6-12) 7226 Geography (6-12) 7228 Economics (6-12) 8200 Social Studies (5-9) 8221 History (5-9) 8222 American Government/Political Science (5-9) 8226 Geography (5-9) 8228 Economics (5-9)
---	--

7. What if the district/charter needs a teacher to teach an assignment for which he/she does NOT hold the appropriate certificate/endorsement?

The district/charter can apply for an alternative authorization. The application will be reviewed by the Professional Standards Commission's Authorizations Committee. If the application is approved by the Authorizations Committee, the candidate will be allowed to teach in the new area of certification/endorsement while he/she *simultaneously* fulfills the requirements to earn the new certificate/endorsement. With the alternative authorization in place, funding for the applicable assignments will **not** be withheld. The alternative authorization will only cover the areas of certification/endorsement for which the authorization is applied and approved.

8. When a district/charter is applying for an alternative authorization, how do they know which certificate/endorsement to request on the application for the alternative authorization?

The district/charter should use the SDE Assignment Credential Manual to determine which certificate/endorsement to request on the application for the alternative authorization.

IMPORTANT: Many endorsements have been eliminated from the SDE Assignment Credential Manual as they no longer exist in Idaho Code and are no longer issued by the SDE; however, some educators still carry these older endorsements on their current credential. These educators can request to have the revised endorsement added, but may need to be on an alternative authorization to allow time to meet the current standards for the endorsement. Only endorsements that are currently in the Idaho Administrative Code can be put on a current credential. For a list of current endorsements, please consult the Idaho Administrative Code: [State Board Rule Related to Teaching](#).

9. Who is responsible for maintaining the SDE Assignment Credential Manual?

Teacher Certification is responsible for the SDE Assignment Credential Manual. CTE is responsible for the CTE Assignment Credential Manual.

Included in instruction are the two-dimensional forms such as drawing, painting, or printmaking; the three-dimensional forms such as sculpture or pottery; other spatial concepts such as architecture and design for the performing arts; and the history and theory of art. Emphasis is placed upon the esthetic and creative factors of visual forms. Crafts – Activities for pupils, which are planned to emphasis the concept, and production of “objects designed for use”. Design quality and esthetics and creative factors are emphasized. Consideration of function and technique, while important, is subordinated to these activities. Craft activities are designed under a variety of descriptive titles such as Metalwork and Jewelry, Pottery and Ceramics, Textiles, and other crafts. Visual arts exposes students to the materials, processes, and artistic techniques involved in photography, film, videotape, et al. Block courses reserve an extended period of time to students to pursue a thematic unit (or units) of study, drawing lessons from more than one discipline. The courses are taught in teams by instructors of the pertinent disciplines, who weave their lessons together, encourage students to be involved in their own learning process, and strive to engender critical thinking and problem solving. Students typically work in small groups as well as individually.

61001 Introduction to Communications (Gr. 6-8)

11001 Introduction to Communications (Gr. 9-12)

Introduction to Communication courses enable students to understand and critically evaluate the role of media in society. Course content typically includes investigation of visual images, printed material, and audio segments as tools of information, entertainment, and propaganda; improvement of presentation and evaluative skills in relation to mass media; recognition of various techniques for delivery of a particular message; and, in some cases, creation of a media product. The course may concentrate on a particular medium.
